PROGRAMME STRUCTURE

The foundations of the Athletics programme are built on the general principles of Long Term Athlete Development and late specialisation. Athletes are developed over a six-year period at a rate that is most beneficial to them as individuals.

The aim of the programme is to ensure that all GSOS athletes develop to their full potential and become Fitter/Faster/Stronger. This will be accomplished by building on the fundamentals begun in S1/2, and by introducing specific workouts, in later years, to develop these attributes.

A Generic Programme is delivered to S1 and S2 athletes, who participate alongside sports pupils from the School of Sport's four other sports, developing fundamental movement, conditioning and mobility skills. A multi-event approach completes the rest of the training programme for S1 and S2. The strengths and skills gained in the Generic / Multi-event Programme are built on in the S3/4 programme.

An early Multi-event approach allows us to focus on late specialisation with athletes. S1/2 is an introductory phase, followed by an S3 transition stage, before specialisation begins in S4. The development of chosen event skills (specialisation) will be the focus in the final two years of the programme. All athletes are supported to develop at an individual rate and their programmes adjusted accordingly. Late entry pupils are assessed and placed into the programme at the appropriate level which reflects their stage of development and ability.

BRITISH MEDAL WINNERS

- Kenny Boyd Gold:**
British A.A.A under 17 1500m - indoor
- Laurie McKenna Silver:**
British A.A.A. under 17 Long Jump - indoor
- Sean Fontana Bronze:**
British A.A.A. under 17 1500m - indoor
- Claire Macaulay Bronze:**
British A.A.A. under 17 1500m - indoor

SCOTTISH RECORD HOLDERS

- Matthew Turner:**
Scottish Schools over 16 800m - indoor
- Colin Severin, David Ross Hunt and Christopher Hodgkins:**
were all part of the Scottish under 20 men 4 x 200m record winning relay team
- Mahad Ahmed:**
under 13 boys 200m Scottish record holder

STAFF

The athletics programme is led by Norrie Hay, High Performance Athletics coach with David Watson and Eva Rankin as Assistant High Performance coaches. Each coach brings a different set of skills to the team. Norrie is an endurance expert also inputting to national programmes for Scottish Athletics when requested. David still competes and is the Scottish National Triple jump champion (2010). Eva is a former multi event athlete and her focus is on hurdles, jumps and throws.

OUTSTANDING ACHIEVEMENTS

Athletes have to date (2012) achieved forty four Scottish titles in a variety of disciplines. Titles have been won in sprints, endurance, hurdles, high jump, long jump, shot putt, road and cross-country running.

In the 2011-2012 season the GSOS u17 women's XC team contested 8 Cross country and Road championships winning seven races and finishing second in the other. These race wins included the Scottish Schools XC, National Road Race and West District XC titles.

INTERNATIONAL CAMPS AND EXCHANGES

In 2010 The Glasgow School of Sport in partnership with Scottish Athletics ran a warm weather training camp to Monte Gordo in Portugal. Senior GSOS athletes traveled to Portugal during the Easter school holidays to train alongside the Scottish Commonwealth Games and National Squad athletes. The athletes once again travelled to Portugal in 2011 and 2012 for their warm weather training.

In 2010 Norrie Hay was part of a GSOS coaching team who participated in a fact finding mission to Zambia. This trip was designed to assess the needs of Zambian athletes ahead of a training camp to be held in Glasgow in the build up to the London 2012 Olympics.

CAREER PATHWAYS

Many of our pupils have gone on to study at colleges or universities where they have pursued courses including Psychology, Sports Coaching, Architecture, Physiotherapy and Law. Claire McAuley became the first graduate from the athletics programme to take up a Scholarship at an American University, joining Northern Illinois University in 2010.
